

Week 5 Homework Quiz 4

Telmen Enkhbold

San Fransico Bay University

CE480 - Java and Internet Application

Dr. Chang, Henry

10/12/2023

Author Note

The Question

Q1: copy from d to a

B int b

A int a

X int x

Y int y

D int d

=====

Q2: implementation sequence

A

B

|

X

|

Y

Z

-----Answers-----

My answer was confusing, the question is confusing. Is this a multiple choice? A roadmap, missing integer, a bare minimum of a clue isn't even here. I do not know why you're quizzing us on one of the verbose computer languages using the least number of characters you can get away with.

Q1.

a = d

Q2.

XYZABC
